Portfolio 🔗

Hello I am
Shahas Nizar

UI/UX Developer with over **6+** years of experience in creating and building user interfaces. Proficient in HTML, CSS, React.js, Nuxt.js along with design tools like Photoshop and Figma. I focus on turning design ideas into responsive and accessible web applications. I work well with teams to connect design and development for great user experiences. Available to start immediately.

Experience.

Lead UI/UX Engineer
Iroid Technologies | 2017 - 2024

- Manage the design and development of user-friendly interfaces using React, Vue, and other frameworks.
- Work with different teams to ensure smooth integration of design and development, improving user experience on all projects.

UI/UX Designer & Developer
- Designed attractive, responsive interfaces and turned design ideas into functional web applications.
- Collaborated with teams to create smooth user experiences using HTML, CSS, and design systems.

UI Designer
- Created appealing user interfaces while working closely with the design team.
- Gained skills in wireframing, prototyping, and building responsive web layouts to improve user experience.

Education.

PG Diploma in UI Design & Development
iCAT Design & Media College, Bangalore | 2016 - 2017

Bachelor of Commerce
MES College, Kerala | 2013 - 2015
